

Plan of site

Objective:

The goal of the site is to get people interested in our hotels nationwide.

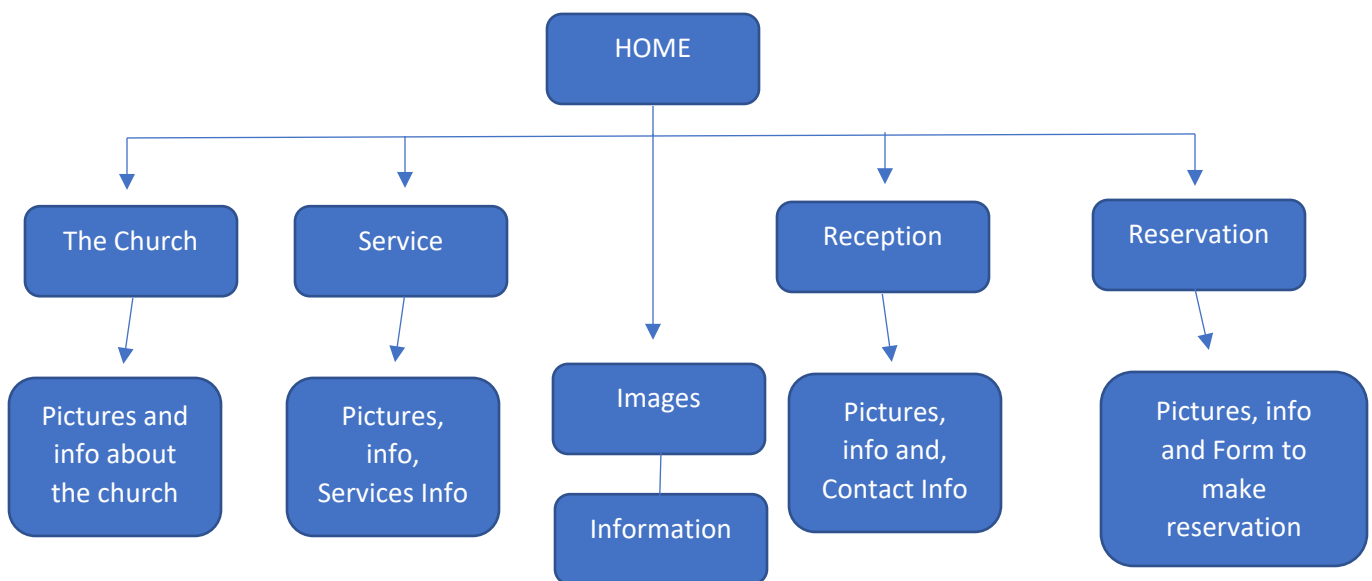

It will also facilitate the use of technology by making this Web page available to you where you can make reservations for our hotels. As well as knowing our services such as the rooms, our staff and our field.

Target Audience:

The main target audience for this project is local and international travelers, especially those church members who use these temples. In view of this, the temple will include employers and workers in different professions so that it provides transparent services for all. Other social services such as security will be added as we want most visitors to have spiritual and peaceful experiences, making this experience more rewarding.
